Juvenile Justice Authority State of Kansas	EDUCATIONAL/ VOCATIONAL MONITORING	
REFERENCES: None	DATE ADOPTED:	7/1/06
	DATE REVIEWED:	

<u>STANDARD</u>: Written policy, procedure and practice shall require Community Supervision Agency staff to monitor each juvenile's attendance and participation in approved education/vocational activities as needed and to address any issues that may arise.

<u>DISCUSSION</u>: It is important both in terms of public safety and educational needs, to verify educational/vocational enrollment and attendance as soon as possible on each juvenile assigned to the Community Supervision Agency. Verification through progress reports, grade cards, and placement providers are acceptable options. Ensuring the juvenile's educational needs are met is an important part of the Community Supervision Officer's role. The Community Supervision Officer should visit the juvenile at school and meet with educational staff to determine the juvenile's compliance with the case supervision plan and to address special needs that arise. As needed may mean as often as weekly for some juveniles who are having difficulty in school; for others, contact with the school may not be as often.

NOTE: The standards and procedures set forth herein are intended to establish operational guidelines for community supervision agencies and their employees/contractors and juveniles under supervision. They are not intended to establish state created liberty interests for community supervision agencies or their employees/contractors, or supervised juveniles, or an independent duty owed by the Juvenile Justice Authority to community supervision agencies, or their employees/contractors, supervised juveniles or third parties. This standard and procedure is not intended to establish or create new constitutional rights or to enlarge or expand upon existing constitutional rights or duties.
